OUR PRINTING UNIT

We are a full-fledged printing house backed by a team of creative Graphic Designer, Machine operator who design your thoughts and ideas into the print form.

SOLVENT MACHINE

Printing resolution can reach to 1440 dpi, even the word is small as 0.5mm. Three different sizes of dots, achieving the complement of point technology, eliminating the granular sensation of the images, even under high speed or low resolution, high-quality images can be printed.

We offer printing that spans a wide range of materials, from window glass, vehicles, banners and sign boards.

We strive to provide our customers with the best and highest quality products available in the agency.

UV PRINTING

M/S RAINBOW
ADVERTISING

UV printer is used to print directly onto flat surfaces. It is an ideal option for printing on materials such as acrylic, PVC, foam boards, and more. Roll-to-roll UV printing: This is a process where a UV printer prints on a roll of material.

- Print customised artwork direct to awards and trophies. Create bright, textured device covers with clear ink added.
- Personalize a variety of stationery items and office supplies. Produce custom branded balls and other sporting accessories.
- Customise notebooks, folders and photo albums.

CNG ROUTER ACP CUTTING

A CNC router operator uses a Computer Numerical Control (CNC) router to cut various materials, like metal, plastic, and wood. Your duties as a CNC router operator are to arrange machine setup properly before beginning work, read blueprints as instructions for cutting, and operate the machine safely.

LASER CUTTING MACHINE
